Parent-Teacher Communication

The Eastford Board of Education (the “Board”) believes that parents should be knowledgeable about the education that the Eastford Public Schools (the “District”) provides to enrolled students. The Board believes that parents are most knowledgeable when they have regular communication with teachers. Therefore, it is the policy of the Board to encourage parent-teacher communication. The Superintendent or designee shall be responsible for developing procedures in furtherance of this policy.

The Superintendent is further required to include information about parental involvement and actions taken to improve parental involvement in the strategic school profile that is submitted annually to the Board and Commissioner of Education. Such actions to improve parental involvement may include methods to engage parents in the planning and improvement of school programs and to increase support to parents working at home with their children on learning activities.

The procedures developed in furtherance of this policy may include monthly newsletters, required regular contact with all parents, drop-in hours for parents, home visits, and the use of technology such as homework hot lines to allow parents to check on their children’s assignments and students to receive assistance if needed.

Such procedures shall require the District to conduct two flexible parent-teacher conferences for each school year. In addition, the procedures shall require the District to:

- A. offer parents the option of attending parent-teacher conferences by telephonic, video, or other conferencing platform,
- B. conduct one parent-teacher conference, in addition to the two flexible parent-teacher conferences described above, during periods when the District provides remote learning for more than three consecutive weeks, and one additional parent-teacher conference every six months thereafter for the duration of such period of remote learning (for purposes of this policy, and in accordance with applicable law, “remote learning” means instruction by means of one or more Internet-based software platforms as part of a remote learning model), and
- C. request from each student’s parent the name and contact information of an emergency contact person who may be contacted if the student’s parent cannot be reached to schedule a parent-teacher conference required during periods of District-provided remote learning.

The procedures must also require a teacher conducting a parent-teacher conference that is required in section (B) above to provide a copy of the document, to be developed by the Department of Education, to provide information concerning educational, safety,
