

A Letter to Parents

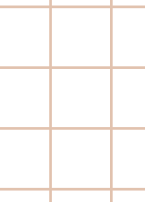

We are excited to share information with you about the P.A.L.S. program at Eastford Elementary School, which is designed to help students strengthen their social skills and cooperative play. This initiative supports our ongoing commitment to creating a positive, inclusive learning environment where every child feels connected, valued, and ready to succeed—both academically and socially.

Through engaging activities, small group/individual sessions, and student-led play opportunities, children will learn and practice important skills such as:

- 
- Taking turns and sharing materials
 - Communicating feelings and needs respectfully
 - Solving conflicts peacefully
 - Working as a team toward a common goal
 - Building empathy and understanding for others

The program is led by our School Counselor, Mrs. Schleicher and our Child Associate, Mrs. Boyd, who will provide hands-on practice tailored to the needs of each student. These experiences will help students develop confidence, cooperation, and self-awareness skills that benefit them not only in school but in life.

We encourage families to ask their children about what they're learning and to reinforce these skills at home. Together, we can help our students grow into kind, capable, and collaborative learners.

If you have any questions or would like to learn more about this program, please contact Mrs. Schleicher via email or phone using the information below!

Thank you for your continued partnership and support in helping our students thrive!

Sincerely,

Mrs. Schleicher
